

# T-Run

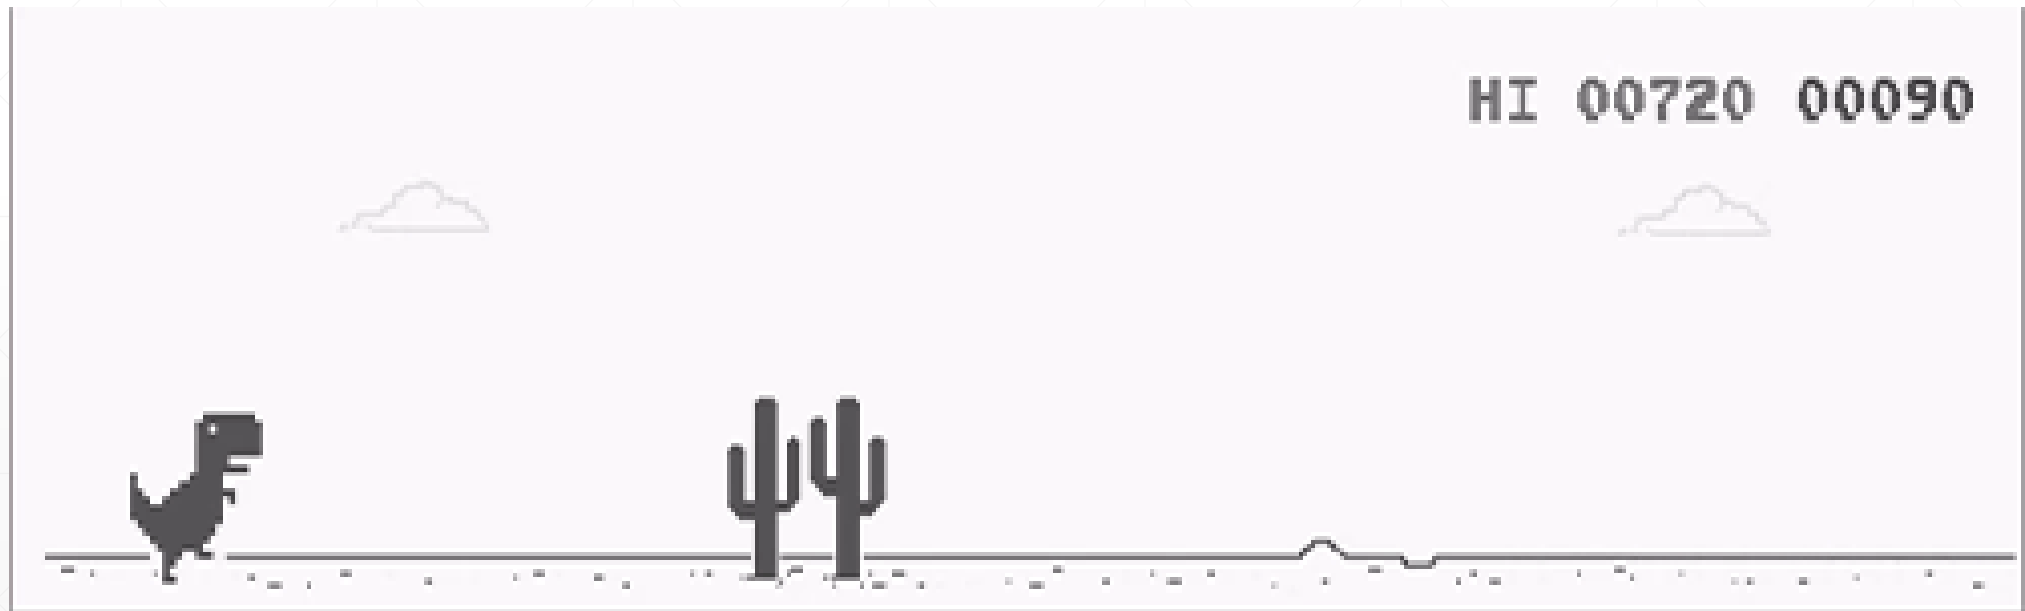

---

Project idea

Group: Adesso, Bottiglieri, Ciavola, Gemito, A.Senatore, Sivoccia

# Inspired by...

Chrome offline game T-Rex Run

# New Features: Countdown

Added a new kind of difficulty by introducing a countdown that can be extended/reduced by the player collecting specific items (bonus/malus).

Once the countdown reaches the zero value, the game ends.

01:00

# New Features: Canyon

Added canyons along the way.

In order to survive, the character has to jump across the canyons.

# New Features: Collectable items

During the gameplay, the player can collect different kinds of items in order to increase his final score or to activate power-ups.

# New Features: Scoreboard

Once the game ends, the final score will be saved in a scoreboard.

HIGH SCORES		
RANK	SCORE	NAME
1ST	10000	BOB
2ND	10000	JWC
3RD	10000	SKT
4TH	10000	TBS
5TH	10000	MNM
6TH	10000	WKJ
7TH	10000	SVD
8TH	10000	WHO
9TH	10000	TRN
10TH	10000	JMC

# Product Backlog

Number	Backlog item	Estimate (Story points)	Priority
1	As a player, I want to access home screen, so I can start the game	XS	MAX
2	As a player, when the game ends, I want to save my score in a scoreboard, so I can see my records	S	MIN
3	As a character, I have to avoid obstructions and canyons by jumping or slipping below, so I can continue the game	XL	MAX
4	As a character, I have a time limit to reach the maximum possible distance	M	MED
5	As a character, I have to collect different items, so I can modify my score and/or the remaining time	L	MED

# Product Backlog

Number	Backlog item	Estimate (Story points)	Priority
6	As a character, after a certain distance, my speed increases in order to make the game harder	S	MIN
7	As a character, I build my score according to the crossed distance	M	MAX
8	As a character, I build my score according to the collected items	M	MIN
9	As a character, I can go forward automatically from left to right	L	MAX

# Story points estimation
